WORK EXPERIENCE

EPSILON HEALTHCARE SOLUTIONS PVT. LTD. | AUG 2025 - PRESENT

HR Assistance Executive cum Office Administrator

Role Overview: Supported HR operations and day-to-day office administration to ensure smooth functioning of HR processes and office workflows.

- Managed daily employee attendance and updated biometric records for new joins and existing staff.
- Maintained accurate data of products going out and coming in, ensuring proper record-keeping.
- Performed daily manpower counting and shared reports with HR.
- Handled onboarding support by introducing new employees to senior HODs and completing documentation formalities.
- Processed ESIC registrations and created PF accounts for new hires.
- Created and organized employee files with all required HR documents.
- Calculated daily office expenses such as tea consumption and prepared amount sheets for HR approval.
- Ensured smooth office operations by managing documentation, entries and coordination tasks.

INTERNSHIP EXPERIENCE

RAYS EDUTECH PVT. LTD. | JAN 2025 - JUNE 2025 (FREE INTERNSHIP)

WEB DEVELOPER

Krishco Engineers Pvt. Ltd. – Corporate Website

Live: krishco.com

Role: Frontend Developer + API Integration (Helper)

Tech Stack: HTML, CSS, JavaScript, Bootstrap

Key Contributions:

- Designed and developed a modern, fully responsive corporate website with a clean UI.
- Ensured cross-browser compatibility and smooth display across all devices.

- Improved accessibility and user experience by applying industry-standard UI/UX practices.
- Focused on performance optimization, visual consistency, and smooth user interactions.
- Assisted in integrating frontend forms with backend APIs for dynamic content and functional workflows.

Rays Renewal Solar Energy Pvt. Ltd. – Company Website

Live: raysrenewalsolar.com

Tech Stack: HTML, CSS, JavaScript, Bootstrap

Key Contributions:

- Built a responsive and user-centric website with a clean layout and intuitive navigation.
 - Used Bootstrap components to maintain consistent branding and professional UI structure.
 - Collaborated with the team to refine UI elements and improve visual alignment.
 - Optimized placement of call-to-action (CTA) buttons for better user engagement.
 - Ensured the website remained visually clean, responsive, and easy to navigate.
-

SKILLS

- Languages: Python, JavaScript, HTML5, CSS3
 - Frameworks / Libraries: Django, React.js, Bootstrap, jQuery, Tailwind (familiar)
 - Database: MySQL, SQLite
 - Tools: Git, VS Code, Postman, PIL/OpenCV
 - Web: Responsive design, cross-browser compatibility, REST API integration
-

PROJECTS

Supermarket Management System (Learning Project)

Tech Stack: Python, MySQL, HTML, CSS, JavaScript, AJAX, jQuery

- I created this project to understand how a real supermarket system works from backend to frontend.
- Built modules for managing products, employees and suppliers, just like actual CRUD operations in companies.
- Used AJAX to make forms smoother so data updates without refreshing the page, improving the user experience.
- Worked with Python + MySQL to store and update all records properly.
- Used jQuery to handle UI behavior and make the system feel more interactive.
- This project helped me understand how full-stack applications work in real life.

ToolMitra – Multi-Utility Web Tool Platform (Personal Project)

Tech Stack: Django, HTML/CSS, JavaScript, Tailwind, PIL/OpenCV

- I built this as a personal project to create a simple platform where users can perform multiple image tasks in one place.

- Added tools like image enhancer, background remover, resizer, stamper, and compressor, so users don't need separate websites.
 - Used PIL/OpenCV to process images on the backend and generate clean, downloadable outputs.
 - Designed the UI using Tailwind CSS to keep everything clean, fast and mobile-friendly.
 - Focused on making the tools easy to understand so even non-technical users can use them quickly.
 - This project improved my skills in image processing, performance optimization and full-stack development.
-

CERTIFICATION

Rays Edutech Pvt. Ltd. Rajapur Pul Boring Road, Patna

Full Stack Web Development in Python (Django)

The Computer Institute, Phulawari Sharif, Patna

Advanced Diploma in Computer Applications (ADCA)
